

**Corn.**—In this county the growing cotton plants have greatly improved in appearance during the past eight or ten days, and now promise an abundant yield of cotton of a superior quality; indeed, it is thought by the knowing ones that Hardeman will produce, this season, eight or nine thousand bales. In connection with this, we will state that, as a whole, the freedmen are working well, and giving better satisfaction than they did prior to the election, when they were being harassed almost to death by political speakers and radical hirelings. Corn that was planted early is now grown, full and complete in every particular, while that which was planted late in the spring is not doing remarkably well, owing to the dry weather which has prevailed for the last eight or ten days; however, a sufficiency of grain will be produced in Hardeman. The crops of both sweet and Irish potatoes are promising, while vegetables of nearly all kinds are suffering for rain. Farmers and planters have or are sowing large quantities of turnip seed. Too much attention cannot be paid to this crop, for nothing is better for cattle in winter than large, sound, juicy turnips, especially are they of great benefit to milk cows. Excellent flour, made from new wheat, can now be had at the various mills in the county at from \$7.50 to \$9.00 per hundred. A great tumble in prices for all kinds of standard provisions is sure to be the result of the united harvests of 1867.

**DIED HARD.**—Old bloody-handed Stanton, who for years has disgraced the office of Secretary of war, had his official head chopped off last Tuesday. The President had intimated to him in various ways that his services were not needed, but he failed to take the hint, and stuck to his robes like a sick kitten to a warm brick. Seeing that he must get rid of the scoundrel, Andrew Johnson transmitted to it a formal note, but it questioned the right of the chief magistrate to oust it.

And you'll have thought it there by nature grew, For it struck to its place at night as gloom, until last Tuesday, when Gen. Grant stepped in and occupied its place. Surratt-Stanton died under protest. A telegram dated Washington, Aug. 12, says:

The President, at 10 o'clock this morning, sent a communication to Secretary Stanton, suspending him from office, and instructing him to transfer all records, books, etc., in his custody to Gen. Grant. The Secretary had notified him at the same time that Gen. Grant had been empowered as secretary of war *ad interim*. Stanton returned a reply, denying the President's right to remove him without legal cause, and the senate's approval. However, as the general commanding the armies of the United States had notified him of his acceptance of the appointment as secretary of war *ad interim*, he had no alternative but submit under protest to superior force. Gen. Grant therefore assumed charge of the war department, and appeared at cabinet meeting this afternoon.

**THE INDIAN WAR.**—Trouble on the western plains seems to increase rather than diminish. The United States forces are accomplishing but little, while the Indians are reveling in a perfect carnival of blood. Work, in many places, has been discontinued on the great Pacific railway, post after post is being deserted, and advices from the plains inform us that for every Indian killed so far it has been done at a cost of one million dollars to the government! The Indians, it appears, both north and south of the line of the Pacific road, are determined on making a desperate stand in defense of what they call their hunting grounds. It is said that the hostile tribes, all told, can muster eighty thousand warriors.

**U. S. SENATOR.**—As soon as the Legislature meets in October, a United States Senator will be selected to serve in the place of Judge Patterson, one of the present incumbents. As the "shebang, capoodle, and all" are radical to the core, of course a "big" rad will be selected. It is very probable that Secretary A. A. Fletcher of State, Billy B. a man Friday, will receive the honor. We imagine that the *fat aspirant* can be heard humming a tune to the following words:

My name is Sen. Fletcher,  
I was born in a shanty,  
To make me a senator, father did try;  
But there's no use in talking,  
For I am a hard one,  
And I'm bound to be Senator, he jokers or die!

**THE CONDITION.**—We wish we could give to our readers a concise statement of the political complexion of the country, but the *thing* can't be did. Imagine a mountain of soft mud, an ocean of filth, legends of ravens wolves, 1,000,000 penniless vagabonds, one billion tons of refuse, one thousand square leagues of solid lies, a river of gaul, ten thousand ship loads of Spanish flies, a puddle of vomit as big as Lake Superior, all mixed together and made into one mass of seething corruption, view it carefully, and possibly you may catch a faint gleam of the political condition we are now in.

**GROWING WARM.**—The inhabitants of the military districts are warming up over the question whether it is best to vote for or against conventions, whose work, should they be called into existence, will be to reconstruct under the Sherman bill—a bill that is so infamous in its features, so cruel, mean and uncharitable, that even a Hotentot would be ashamed to favor it. It is a radical egg, full of vermin and should be kicked into the cesspool from whence it came. Out with the abortion, men of the south; save your honor and protect your race. Set your faces against the conventionists.

**BAD COMPANY.**—The following named gentlemen, should they be allowed to take seats in the Legislature, will be compelled to keep bad company: W. M. Johnson, of Hardeman; W. G. Cockrell, of Madison; John Woodward, of Robertson.

Information reaches us to the effect that Billy Brownlow's chicken lifters are to be paid off and discharged. This is a flunk movement prior to their departure for *terra del fuego*!

Money is more abundant in the large Eastern cities than ever, while the entire South is cramped for the want of a few millions.

## "As You Were!"

The New York Tribune, one of the most powerful public prints in this or any other country, thus refers to Billy B. and his late Knoxville speech:

"Gov. Brownlow—if we rightly apprehend his Knoxville speech of Saturday night, will forthwith propose and urge the enfranchisement of every Tennesseean now disfranchised for rebellion. We have not been accustomed to think lightly of the Governor's statements. We have held him in respect, and we hold him in respect. His forthright message, if its drift be truly foreshadowed by his last Knoxville speech, will prove that our past estimate has done him injustice. Should he frankly take and hold the ground above indicated, he will prove himself not only a wise man but a great one. We trust there is no mistake as to his purposes."

The Tribune man can "keep his hold," for we are assured by the radical organ at Nashville that Billy B. will never consent to the enfranchisement of the white people of this State—"never, no never!" Don't bet a cent on Billy Horace, he's worse than Dan Castello's "January."

**AERIAL NAVIGATION.**—The Atlanta Intelligencer says: The subject of aerial navigation has been recently revived. One of our citizens who has devoted years of patient study to the subject, has perfected a plan by which he proposes to travel with mails and passengers from Washington to New York in three hours. His theory has met the approbation of all the scientific and practical men who have examined it. He is no dreamer or enthusiast, but has arrived at conclusions after patient investigation and laborious study and experiment. All that he needs for a practical illustration of his invention is means.

The Nashville Republican Banner, of the 14th, brings us news that there is a report current there among the Radicals that the leaders are urging Gov. Brownlow to call the Legislature together, for the purpose of modifying the franchise law so that the mass of the people shall be enfranchised. The argument is that if this is not done under the Constitution, as it now stands, before the first of October, it cannot be done for five years without amending the Constitution. The German Radical organ of the city favors the call of the Legislature, and thinks a majority of Radicals favor the amelioration. What the Governor's views are is not intimated.

**ANSWER.**—The election is over and the Radicals have won the race. They worked upon the ignorance of the negroes and made them believe that if they voted for Brownlow 40 acres of land would be given them. Who told them such a bare-faced lie? Certainly not the Conservatives.

The negroes were told that if they voted for Etheridge they would be enslaved again. Who told them this miserable lie? Certainly not the Conservatives.

Will the Memphis Post or the Nashville Press and Times answer? Talk out, sir Rads, or the dardies will blow you—*in* fact they are doing so now.

Nickel is a white metal requiring a high temperature for fusion; it is magnetic, and has a specific gravity of 8.5. It is not an abundant metal, there being but three or four localities of it in the United States, and the only locality where it is profitably worked is in Lancaster county, Pennsylvania, about four miles southwest of the Gap station on the Pennsylvania Railroad. A remarkable fact in regard to this metal is, that it forms an important ingredient in most ferrolites, and in the masses of native iron found in various parts of the world, and which are supposed to have an aerial origin.

The Brandon Republican says: Jeff. Thompson has got tired of selling whiskey, and turned his attention to politics. Like Longstreet, he thinks the nigger party the strongest. He is a good hearted fellow, tells a heap of "whoppin'" yarns about fighting, is always the hero of his own stories, writes poetry about his whiskey, and imagines himself a great man. If we could buy him for what we think he is worth and sell him for his own estimated value, we would make money enough to build a railroad to the Pacific.

**THE CONGRESSMEN ERECT.**—Below we give a list of the persons elected to Congress at the August farce, every one of whom are radicals:

District No. 1, Butler,  
" " 2, Maynard,  
" " 3, Stokes,  
" " 4, Mullins,  
" " 5, Trumble,  
" " 6, Arnell,  
" " 7, Hawkins,  
" " 8, Nunn.

On Saturday evening, a son of Andrew Jackson, who resides at Center Hill, near Hudson City, New Jersey, was charged by his mother with stealing twenty-five cents, and the father, in chastising him, had only struck the second blow when the boy sank down and almost immediately expired. The boy was but nine years old. The grief of the father is intense at the fatal result of what he intended for the boy's reformation.

James S. Thomas, the radical Mayor of St. Louis, has been arrested and fined for assaulting a mulatto woman. He struck her with his cane, and as he said himself, struck her hard. He kicked her twice in the region of the breasts, and finally crushed her down by swinging an iron gate against her. The jury only assessed a fine of three dollars and costs, but a suit has been entered against him for \$10,000 damages.

The Indianapolis Journal shames, "All hail Tennessee." Four Etheridge shrugs his shoulders and groans, "All hail!" too, as the merciless tempest beats on his head. —Press and Times.

And you will be yelling "all fire" about the time old Niek gets his due and shovels a few lumps of brimstone and saltpetre upon your guilty, radical head!

Late Mexican dispatches say: Santa Anna had been brought to Vera Cruz by a Mexican man-of-war, and was to be tried for conspiracy against the Government. The Mexican Government schooner Juarez arrived at Vera Cruz on the 30th ult., having on board Santa Anna's wife and family.

## Insure Your Lives.

It always affords us pleasure to make favorable mention of an institution like the St. Louis Mutual Life Insurance Company. The business of this company is in the hands of the best men in the South and the West; and the plan or system of insurance adopted, is so reasonable and advantageous to the insured, that it cannot fail to give general satisfaction. As an evidence of the popularity and appreciation of the St. Louis Mutual, we direct attention to the following list of gentlemen, all of whom have acted wisely in securing a policy through the Company's agent in this city, John Kirk, Esq.:

W. W. Gates, Esq., Jackson, Tenn.  
Dr. John Chester,  
Capt. J. J. Williams, Asst. Sup't M. & O. R. R., Jackson, Tenn.  
John B. Morris, Esq., Jackson, Tenn.  
Maj. R. B. Hurt, " "  
E. W. Yancy, Esq., " "  
Levi Perl, Esq., " "  
Allen Dabney, Esq., " "  
J. L. Lancaster, Esq., " "  
Col. John Alston, " "  
J. B. Cobb, Esq., " "  
Dr. J. G. Womack, " "  
Radford Withers, Esq., Madison county.  
A. S. Rogers, Esq., Pinson Station.  
W. R. Butler, Jr., Jackson, Tenn.  
J. H. French, Esq., Denmark, Tenn.  
Col. A. R. Reid, " "  
Rev. J. H. Gillespie, " "  
Paris T. Udey, Esq., " "  
B. T. Travis, Esq., " "  
Maj. J. B. Neely, " "  
J. W. McKissack, Esq., " "

## From Washington.

WASHINGTON, August 14.—It is certain that to-day an order was issued by direction of the President, through General Grant, addressed to Major General Sickles, instructing him that to order can be properly issued and enforced in conflict with the courts in the United States. This revokes Sickles' order No. 10.

A New York special says a bill is being prepared by prominent Southern radicals to enforce the confiscation laws, and so modify them as to reserve all of the seceded States in the same manner as public lands are surveyed, and to grant pre-emption rights to freedmen and Union soldiers. Three hundred millions of dollars, proceeds arising out of the sales, are to be used in reimbursing loyal men for property destroyed and confiscated by the Confederate government, and the balance will be set aside for paying pensions to Union soldiers. The bill provides that after a survey is made the land shall be offered for sale to freedmen and discharged Union soldiers at the rate of \$1.25 per acre, payable in twenty years at an interest of six per cent. per annum, other parties to be allowed to purchase at twenty-five per cent. cash, and equal annual instalments for three years at six per cent. interest. The bill also provides that disloyal persons shall be allowed to retain property to the amount of five thousand dollars, providing the limit of such property does not exceed the legal subdivision of one hundred and sixty acres.

## ITEMS.

It is reported that Lopez, the betrayer of Maximilian, has been assassinated.

Stanton persists in refusing a copy of his protest against removal, for publication.

The mortality report of New Orleans for the past week shows 14 deaths from cholera, and 14 from yellow fever.

Colonel Burns has been re-elected President of the Nashville and Chattanooga railroad.

Jefferson Davis again refuses to apply for pardon.

The Postoffice Department are taking measures for the reopening of the post-offices in the South, closed during the war.

The Mexican congress will assemble in November, and the Presidential election come off in December.

J. H. Kinkard has been appointed postmaster at Sitka, Russian America, this being the first appointment made in the new possessions.

Juarez has ordered Santa Anna to be tried. Marquez has been captured and was *en route* for the Mexican capital, at last advices.

General Steadman's name continues to be mentioned in connection with the post office in the War department, but the President has made no tender of it to any one. It is quite probable that Gen. Grant will continue to act until the meeting of Congress.

**COMMERCIAL.**—Liverpool, Aug. 14.—Cotton closed firm at an advance of ½.

Memphis, Aug. 15.—Cotton market quiet; middlings 27½/28. The Ledger of to-day says:

City Scrip is about 53 to 54 buying, and 56 to 57 selling. There is a very limited demand for County Warrants, the prevailing rates being 70, outside figures, buying, and 75 to 80 selling. Police Scrip rates at 60 buying, and 61 to 63 selling. In Tennessee money we quote as the buying rates: Bank of Tennessee (old issue), 50; Bank of West Tennessee, 40; Bank of Chattanooga, 10; Bank of Middle Tennessee, 95; City Bank, 90; Merchants' Bank, 95; Northern Bank, 95; Ocean Bank, 95; Planters' Bank, 98; Union Bank, 98; Shelbyville Bank, 80; Southern Bank, 20; Traders' Bank, 95. Nothing is transpiring in stocks.

The Holly Springs Reporter of yesterday (16th) says:

There were three deaths from cholera in Canton last week.

In this State the Masons have 226 lodges and 4,018 members.

There will be another grand tournament at Goodman on the 28th inst.

Three or four deaths, from cholera, occurred in Davis, Panola county, last week.

We regret to learn that the cotton worm has made its appearance in some portions of this country, and is doing damage to the cotton. We trust its stay will be brief.

The Baton Rouge Advocate of the 16th says: "There is no doubt but the genuine caterpillar is at work on the cotton plantations in this vicinity. The planters are apprehensive of the total destruction of the crop."

A few days ago the body of a white man was found in the river opposite Vicksburg, Miss., whose skull was mashed, and who had a mill stone tied to his neck. No clue to the perpetrators of the awful deed.

The following epitaphs are from the French: "Here lies my wife, and Heaven knows, Not less for mine than her repose." "Here lies, thank God, a woman who (I repeat and repeat her whole life thro') Tread lightly 's' her wondering form, Or else you'll raise another storm."

At Fort Donelson, a few days since, Thos. Calbert, colored, shot Jordan Anthony, another negro, killing him instantly. The murderer made his escape.

The President on the 7th inst. expressed his intention of visiting Tennessee for a few days, and to leave the moment official duties will permit.

It is thought that Judge Holt will be removed from office.

## New Orleans and Ohio Air Line Railroad.

Office N. O. & O. R. R.,  
Paducah, Ky., July 31, 1867.  
At a called meeting of the Board of Directors of the New Orleans & Ohio R. R. Co., held this day at the office of the Company in Paducah, Ky., present: L. M. Flournoy, President, and J. H. Terrill, J. G. Callahan, Geo. Langstaff, J. M. Bigger, Geo. H. Morrow, J. F. Harris, Wm. Readles, Wm. Nolen, J. W. Thornberry, Directors. The following proceedings were had:

S. W. Morton, of St. Louis, Mo., presented the following resolutions and Letters, which were read and ordered to be spread on the minutes, viz:

Office M. C. R. R. Co.,  
Water Valley, July 17, 1867.  
At a meeting of the Board of Directors of this Company, held at this office this day, the following resolution was offered and adopted:

Whereas, Messrs S. W. Morton and J. J. Williams have in person attended this session of our Board, and have laid before us propositions leading to such a co-operation with the N. O. & Ohio Air Line Railroad as will ensure a short and advantageous route by Paducah to the Eastern and Northern markets and lines of travel, therefore, as the sense of this Board be it

Resolved, that we view this co-operation, very important to the interest of this road, and that a committee of five Directors be appointed to examine further into the details of the proposed arrangements, into the practicability of completing such arrangement, and carrying out the enterprise, with directions to confer with such a committee herein appointed in behalf of the New Orleans and Ohio Air Line Railroad.

The committee herein appointed to report to the President of this company as soon as convenient.

The following gentlemen were appointed a committee under above resolutions: Messrs W. J. Stephens, A. H. Pegues, R. M. Laster, T. J. Malone and Jas. B. Kent.

I certify the above and foregoing to be a true copy from the minutes. Witness the corporate seal of the company at office this day and date above written.

J. A. McConico,  
Office of the N. O. & O. R. R. Co.,  
NORTHERN R. R. Co.,  
New Orleans, July 19, 1867.

I have examined the plan of the proposed railroad from Paducah, Ky., to Jackson, Tenn., and after the explanations given relating thereto by Mr. S. W. Morton, of St. Louis, Mo., I do not hesitate to express my unqualified approval of its rapid construction. It will evidently shorten the distance Northward from New Orleans, and diminish the charges on freight of all kinds, by not breaking bulk at Paducah.

I will be happy to attend the meeting of Directors and others, which is to take place shortly to discuss matters referring to said road.

G. T. BEAUREGARD,  
President.

MOBILE, July 24, 1867.

**W. MORTON.**—I have devoted the few leisure moments at my disposal since our interview this morning, in thinking of our proposed plan of running a road from Mayfield, on the N. O. & O. R. R. to Jackson, Tennessee. This would clearly make a direct communication with the Gulf, both at New Orleans and Mobile. You idea that Paducah will at no distant day have a road to Vincennes, thus putting them in connection with the great routes Eastward, would make your proposed road a part of the shortest and most direct route from the great cities of the East to the Gulf.

Your further suggestion, that a short road will be built from Paducah to some point on the Illinois Central, making a more direct route with Chicago and Wisconsin, and make your proposed road one of great earning power, and it would be a portion of the direct and shortest route from the East and the North and the West to the cities of the Gulf. The war has left my neighbors and myself in no condition to engage in new enterprises at present. Good crops will, I hope, relieve us, from the embarrassments which at present surround us, and we shall then be able to do our part in developing the great resources of our country.

The unsettled condition of public affairs is just now producing a depressed state of feeling, which causes Capital to be sensitive, but even this must be temporary, and returning sense of right and justice will surely come to the people and rulers.

Very respectfully yours,  
ABRAHAM MURDOCK,  
Pres't M. & O. R. R.

After the reading of the above letter, etc., Hon. J. M. Bigger, presented the following preamble and resolution which were unanimously adopted:

Whereas, It is contemplated and desired to have a meeting of delegates from the New Orleans, Jackson, and Paducah, the Mississippi Central, the Mobile & Ohio, the Nashville & Northwestern, the Memphis & Ohio, the Ohio & Mississippi, the Southern Illinois, the Elizabethtown & Paducah, and the N. O. & Ohio Railroad Companies at the City of Paducah, Ky., on the 28th day of August, 1867, to take into consideration important railroad interests. Be it therefore

Resolved, That this Board heartily approve of said contemplated meeting; and be it further

Resolved, That G. H. Morrow, Wm. Beadles, and Wm. Nolen, be appointed a committee to confer with the Mayor and Common Council of the city of Paducah, and request them to invite said delegations, in the name of the City of Paducah, and make them their guests during their stay in our city.

On motion of Col. Morrow, a committee of three was appointed to co-operate with a committee of the City Council, in carrying out the object of the above resolution; and further moved that the 28th day of August be the day selected for the meeting. Messrs. Morrow, Beadles and Nolen were appointed.

Hon. J. M. Bigger moved that a Committee be appointed to confer with the Delegations or Committees from other Roads represented at the meeting, relative to the early construction of the New Orleans & Ohio Air Line Road from Paducah, Ky., to Jackson, Tenn.

J. M. Bigger, G. H. Morrow, Geo. Langstaff, L. M. Flournoy, L. S. Trimble, and J. H. Terrill were appointed on the above Committee.

On motion of Col. Morrow, L. M. Flournoy, J. H. Terrill, L. S. Trimble, and J. M. Bigger, were appointed a Committee on invited guests.

L. M. FLOURNOY, Pres't  
T. A. BAKER, Sec'y.

**MEETING OF THE CITY COUNCIL.**  
Called meeting of the City Council on July 31st, 1867, present: J. W. Sauer, Mayor, Councilmen Thornberry, Saunders, Settle, Endres, Herring, Williamson and Langstaff. The following resolution was offered by J. W. Thornberry:

Whereas, Committees from several Railroad Companies have been invited to meet the Board of the New Orleans and Ohio Railroad at Paducah, on the 28th day of August, to consult together about matters of great importance to the city of Paducah and surrounding country, therefore be it

Resolved, by the Mayor and Council of the City of Paducah, that the hospitalities of the City be extended to them during their stay among us, and that the Mayor appoint a Committee of three to receive them on their arrival.

COMMITTEE.—Mayor J. W. Sauer, Langstaff, Thornberry and Williamson.

The Council then adjourned.

Geo. LANGSTAFF,  
Clerk pro tem.

**One of the Melish Killed and Three Wounded.**—A Radical Bullet did the Work. We understand that while Sumner's company of militia were out upon drill at Franklin, yesterday, going through the bayonet exercise, one of the guns was prematurely discharged, by which accident one of the company was killed and three others were injured. We suppose that when an investigation is had in the matter, an official report will be returned to the Bureau that the killing was caused by the discharge of an infernal rebel bullet in the hands of a member of the awkward squad.—Nashville Gazette, 10th.

Her Majesty, Hailek-Jelku, the Queen of the Society Islands, in company with her suite, has just arrived in Paris to visit the Exposition.—Exchange.

Jeemes, our devil, wants to know whether queen Hailek-Jelku sports a water-fall or not? He says if the information is not furnished the above important item won't reach You-be-dam!—in California.

**Green Corn.**—A writer in the German-town Telegraph says that green corn may be kept the year round by pickling it with the husks on, in brine strong enough to preserve cucumbers, care being taken to keep it covered with brine. Boiling it in a good supply of water will freshen it sufficiently for the table. It is worth trying.

**"ON HAND EARLY."**—Some of the radical members elect of the Legislature, who never tasted the sweets of office, have already arrived in anticipation of the October term.

So says the Nashville Union and Dispatch of the 7th.

The Hartford and Wyoming, U. S. men-of-war, lately had a brush with pirates on the island of Formosa, in Chinese waters, in which Lieut. S. Mackenzie lost his life.

Some of the New York papers are discussing the expediency of that State selling out its public works to get rid of the State debt, which is now \$50,000,000.

In Mobile, on Friday, fourteen negroes were appointed on the police force by Mayor Horton. One of them was made lieutenant of the day police.

In the United States there are, in successful full operation, 43,250 miles of electric telegraph—13,000 miles more than in all Europe.

Our friend "Jenkins" says he was asked to write a "take off" on the Black Crook. He replied that he couldn't see anything to take off!

It appears that infanticide prevails to a great extent among the freed negroes. In Columbia, Miss., nine babies were found in one well.

Returns of the Registration in Alabama indicate that there will be a majority of about twenty-five thousand colored voters in the State.

In 1783, one century ago, less fourteen years, *chignons*, or water-falls, were worn by the nobility of Europe.

The wife of Gen. Harding, a well known citizen of this State, died near Nashville on the 9th inst.

The whole country of Mexico is to be divided into six military districts, each commanded by a General of the army.

The army worm has made its appearance among the cotton on several of the Sea Islands between Charleston and Savannah.

The new custom house building for Nashville, which was so much talked of a short time since, has been indefinitely postponed.

Peaches and apples are very scarce in this county. The cold weather of last spring did the work.

Fifteen cent notes, with the likeness of General Grant on them, are about being issued.

The alderman who was lately injured by the accidental discharge of his duty, is reported to be in a fair way of recovery.

Jefferson Davis was born in Todd county, Kentucky, and was sixty years old on the 3d day of June.

The pecuniary cost of the Mexican expedition of the French was over sixty millions of dollars in gold.

If a Colt's pistol has six barrels, how many barrels ought a horse pistol to have?

In Fayetteville, Ark., wheat is selling for \$1 per bushel.

It is well known that Noah navigated a river, because he was on the Ark as a saw.

There are two hundred and seventeen tipping houses in Davidson county.
